Oslo

FEATURES & CHARACTERSTICS

Neo is a modern architectural feature designed to reduce discomfort from direct sunlight. It lets in natural light while keeping out heat. The co-extruded protective coating resists fading for over 7 years, maintaining a vibrant wood appearance. These decorative profiles are not waterproof or insulating. Neo systems are suitable for public spaces, commercial buildings, and homes. Fire rating not applicable.

LOUVER SCREENS

COMPONENTS REQUIRED

Neo - Micro Beam
60mm x 40mm x 3000mm

Reinforcement
30mm x 20mm mild steel

Neo - Tie Beam
140mm x 50mm x 4800mm

Reinforcement
66mm x 33mm mild steel

APPLICATION

Installation Principle

NEO systems may be installed horizontally or vertically while always complying with a maximum spacing of 2m between two support and 60mm for overhangs.

Vertical Installation

Horizontal Installation

FASTENING OF NEO SYSTEMS

Direct Fastening

With self-drilling screws

With rivets

Fastening with brackets

Fastening on concrete supports

Fastening on metal supports

FINISHING ACCESSORIES

For making the NEO system extraordinary

Tie Beam End Cap - Straight

Tie Beam Shadow Corner

Post Bottom Shadow

Tie Beam End Corner - Taper

Micro Beam Shadow Cover

WONDERWOODS

With over 30 years of expertise, we believe in creating sustainable spaces by providing the most premium quality products and services.
